SUMMARY

Full-stack developer with 2 years of experience in developing modern and responsive web applications. Proficient in React.js, Next.js, Node.js, JavaScript, Tailwind CSS, MongoDB, Firebase, and Git. Highly adept at both independent and collaborative projects, with an emphasis on front-end web development.

WORK EXPERIENCE

Full Stack Developer | Fickl App

Jun 2022 - Current, VANCOUVER, CA

Fickl is a full-stack marketing platform dedicated to empowering businesses in the seamless management of their marketing content and strategies.

- Developed and maintained the web application using React and Firebase
- Automated customer payments with Stripe and Firebase extension
- Assisted in improving customer onboarding process and optimized user experiences
- Integrated third-party APIs to develop email marketing features and streamlined social media auto-publish function

Teaching Assistant | BrainStation Web Development Bootcamp

MAR 2022 - Jun 2022, VANCOUVER, CA

- Graded assignments and provided feedback on progress
- Conducted code review for 25 students
- Participated in weekly retros and stand-ups with the Education Team
- Promoted cross-collaboration for students in Web Development and UX Design
- Provided 1-on-1 mentorship for students

PROJECTS

BLOOM EXPRESS

- A flower delivery web application mockup with an elegant and responsive design. Built with Next.js, TypeScript, and Tailwind CSS.

BOOKSELF

JAN 2022, BrainStation Capstone Project

- A full-stack web application with CRUD operations and user authentication. Fully responsive.
- Front-end interface made with React, Redux Toolkit, Material UI.
- Back-end and database using NodeJs, Express, MongoDB.

THE ONE WITH THE ARRAY METHODS

- A dynamic website designed to explore JavaScript array methods, featuring practical use cases and adorned with the playful charm of the Friends' theme.
